

total.com

Supply affordable energy to the growing population, address climate change and meet new customer expectations. Total is a major energy actor and that's our commitment.

That is what guides what we do. With operations in more than 130 countries, we are a global integrated energy producer and provider, a leading international oil and gas company and a major low-carbon energy operator. We explore for, produce, transform, market and distribute energy in a variety of forms, to serve the end customer.

Our 98,000 employees are committed to better energy that is safer, cleaner, more efficient, more innovative and accessible to as many people as possible. We focus on ensuring that our operations consistently deliver economic, social and environmental benefits. Our ambition is to become the responsible energy major.
