

Safety green light

1 What is the job to be done?

- At what exact location?
- Do I understand my role and am I able to do it? Have the procedure and work permit been explained to me?
- Do I have the right tools/protective equipment for the work?

2 What should I do if change occurs?

- Change in conditions (environment, co-activities, etc.) during the course of work (need for a tool not initially planned, operating procedure or risk not initially identified, etc.)?

3 What could happen that could be serious?

- Is there a risk of a fatal accident?
- Can someone hurt me or can I hurt someone?
- What will protect me?
